Our Ref

Your Ref

Dear Mr Goodwin,

Thank you for your letter dated 24 February regarding the testing of biofuels.

I can confirm that if you keep the test certificates with your "Motor Fuels Record" and make them available for inspection on request they should provide sufficient evidence for duty liability. Further information on record keeping is contained in paragraphs 3.5 and 4.9 of Public Notice 179E.

I am glad to have been of help and wish you and your business great success.

Yours sincerely

Geoff Riley
